

TCT Specifications

Features and Benefits

Diesel powered rubber tracked remote controlled machine capable of lifting, loading, transporting and dispensing as well as recovering cable in multiple work environments. Additional lifting modules can be incorporated to give the TCT more versatile operation. The TCT can also be used under live OLE (Overhead Line Equipment) without the need for isolations and is extremely agile, allowing it to maneuver around most track furniture.

Vehicle Data		
Engine	Kubota V1505 E4B	
Capacity	1500cc	
Emissions	Stage IV	
Fuel	Low sulphur diesel	
Power output	18.5 kw	
Max RPM	2300 rpm	
Hydraulic pump	Vivolo XV-2P/26	
Max Hyd. pressure	170 bar	
Max SWL	2000 kg	
	Metric	Imperial
Machines weight	1730 kg	3,814 lbs
Operating speed	3 km/h	1.8 mph
Lift Capacity	2000kg	2 tonnes
